Product information

The classic cast iron cooking grid, suitable for gas and charcoal barbecues, is an indispensable accessory for any barbecue fan. A wonderful seared pattern can be created on the meat with little effort. Just heat for a few minutes on the barbecue, oil the surface and add the meat. After barbecuing, allow to burn out then re-oil and the cooking grid is ready for the next steak.

The supplied handle allows the heavy cooking grid to be easily removed.
