

## Technical data

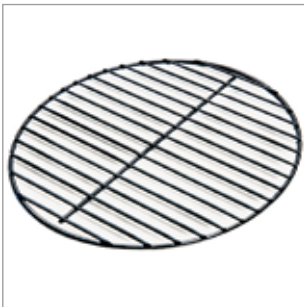

Item number:  
18.211.06

Suitable for	gas barbecues
Diameter	480 mm, 570 mm
Funnel position	normal position
Set	-
Size	Ø 39.5 cm
Material	porcelain-enamelled steel
Information	-

Weight	0.8 kg
Packaging unit (CU)	1 pc.
Ordering unit (TU)	6 pcs.
Number per palette (LU)	624 pcs.
Packaging height	46 cm
Packaging width	39 cm
Packaging depth	1 cm

## Product information

Using a smaller cooking grid makes room for larger food such as turkey or other large poultry.

The standard cooking grid is removed and the small cooking grid laid directly on the funnel in the volcano position. This means the food can be placed lower down. The consistent air circulation produces perfectly cooked food. There is no risk of the barbecue catching fire because of excessive heat.

The cooking grid is easy to clean thanks to the porcelain enamelling.
